

**COMPOSITION** Mixture of alkyl sulphonates and fatty alcohols

**IONIC STRUCTURE** Anionic – Nonionic

**APPEARANCE** Light Blue coloured , viscous liquid  
pH(%5) : 6 - 7

**PROPERTIES** MEGDER AR is specially formulated for wool washing. It is very effective in removing dirt of wool in working of double –face.  
It works on dirt and hard water, also provides whitening effect and removes blood and piddle from wool fibres

It is very effective in prevention of felting of wool by forming stable foam.

Natural fats are levelled by its anionic part.

Fatliquors can be easily emulsified with MEGDER AR .

It's used for rinsing of naturel fats, especially at the end of the degreasing step.

### APPLICATION

Wetting	0.5 – 1 g / l
Wool Washing	2 – 3 g / l
Degreasing	0.5 – 1.5 g / l
With fatliquers	0.5 – 1 g / l

**STORAGE** Keep well closed, in its original container, free from moisture. .

**PACKING** 60 kg plastic drum and 200 kg barrel.
