

COMPOSITION	Biodegradable emulsifying agent..
IONIC STRUCTURE	Nonionic
APPEARANCE	Colorless liquid.
PROPERTIES	<p>MEGDER DER-100 shows strong degreasing effect and a high emulsifying power in solvent-free systems.</p> <p>Is a very good emulsifier of natural grease in leather structure.</p> <p>Does not contain any solvent and does not need any solvent in its usage.</p> <p>Is completely biogradable and can be used directly for degreasing process.</p> <p>Can also be used in the painting or liming process to increase degreasing and dispersing effect.</p>
APPLICATION	<p>Degreasing of sheep and goat leather for garment:</p> <p>a) Firstly warm up the drum with water up to 40°C and operate for 10 minutes. Then run off and load the skins without water.</p> <p>MEGDER DER-100 - 4-7 %, run for 90 minutes.</p> <p>Add water 100 %, 34 – 38°C</p> <p>Salt 2 %, run for 30 minutes (two times).</p> <p>b) Degreasing for woolled sheepskins</p> <p>1st Bath : 1: 10 Float ratio 34 – 38°C</p> <p>MEGDER DER-100 100 - 2 –4 g/l, run for 45 minutes</p> <p>Add salt 5 g/l and run for 30 minutes.</p> <p>2nd Bath : 1:10 Float ratio 34 – 38°C</p> <p>MEGDER DER-100 - 2 –4 g/l</p> <p>Add MEDER 21 YKK 1 g/l, run for 75 minutes.</p> <p>Rinse 1:10 Float ratio for 20 minutes.</p>
STORAGE	It should be stored under normal conditions, in its original closed container.
PACKING	60 kg plastic drum, 200 kg barrel and 1 tone container.
