

DESCRIPTION

It is an effective acidic cleaner which used in cleaning undesired residues on metal surfaces such as oil, rust, slurry and lime.

PHYSICAL AND CHEMICAL SPECIFICATIONS

Ionic Structure : Anionic-Nonionic

Appearance : Colorless liquid

pH : 1.0 ± 0.5

Bath Temperature : 40-60 °C

Its corrosiveness on metal surface was minimized with special inhibitors.

It is environmentally safe.

APPLICATION

It is applied to the dirty metal surface at 1:5-1:7 (in water) rates. It can be applied by spraying, circulating and dipping depends on the processing conditions. It should be leaved for 30-60 minutes in application area.

Avoid contact with skin and eyes because it is strongly acidic. In case of contact with skin and eyes wash with plenty of water.

STORAGE

Keep away from high temperatures. Shelf life is 1 year at room temperature in original package.

PACKING

30 and 60 kg plastic barrels.
